

# Missing You

*Words and Music: Eon De Bruin*

## **Verse 1:**

I remember, the pictures of you in my mind  
It was September, that day that you left us behind

I remember, the day that you passed away  
And I remember, as clear as it was today  
Went to our Maker, that's where I will find you one day  
And I remember, everything is so clear

## **Chorus:**

And I miss you  
More and more every day  
Not a day that goes by  
And I need you  
More and more every day  
All I can say I miss you

## **Verse 2**

I remember, the times that we laughed and we play  
And I remember, the fun that we had every day  
But I remember, that last breath when you faded away  
And I remember, everything is still clear

## **Bridge 2:**

The way you fell down  
And the way you hit the ground  
You shook in my arms  
I remember the sound  
Your glasses on the floor  
And your hand is in mine  
Deep in my heart  
I could feel it was time  
The tears in my eyes  
As they took you away  
I would give my life  
If only you could stay  
Where to from here?  
And what to do now?  
Had to carry on  
But I didn't know how
